No. 01, January 2026

Snefald

Der var noget i gære. Stilheden lå tung over landsbyen, og der var ikke så meget som et vindpust at mærke. Temperaturen havde sneget sig ned under frysepunktet, nu hvor skyerne langsomt lukkede sig om den blege vintersol. Det var som om naturen holdt vejret. Selv småfuglene sad tavse og afventende på træernes nøgne grene, som om de måske anede, hvad der var på vej?

Vi kunne endnu ikke se det. Forandringerne tog sin begyndelse højt oppe over landsbyen, skjult for vores blikke. Når vi kiggede op, så vi kun de kolde skyer deroppe. Men inde i skyerne skete en forunderlig forvandling. Skyernes vanddamp frøs til fine iskrystaller. Krystallerne klumpede sig sammen og gjorde dem tungere. Snefnuggene begyndte deres fald mod jorden.

Pludselig begyndte sneen langsomt at dale ned over landsbyen. Årets første sne. På mindre end en time var landskabet fuldstændigt forandret. Buske og træer bøjede sig under det hvide lag. Græsplænerne og hustage bar nu en hvid kappe af nysne.

Snowfall

Something was afoot. Silence lay heavy over the village, and there was not so much as a breath of wind to be felt. The temperature had crept below freezing, as the clouds slowly closed in around the pale winter sun. It was as if nature were holding its breath. Even the small birds sat silent and expectant on the trees' bare branches, as though they might sense what was on its way.

We could not yet see it. The changes began high above the village, hidden from our view. When we looked up, all we saw were the cold clouds overhead. But inside the clouds, a wondrous transformation was taking place. The clouds' water vapor froze into fine ice crystals. The crystals clumped together and grew heavier. The snowflakes began their descent toward the ground.

Suddenly, the snow began to drift slowly down over the village. The year's first snow. In less than an hour, the landscape was completely transformed. Bushes and trees bent beneath the white layer. Lawns and rooftops now wore a white cloak of fresh snow.
